

WHY CHOOSE FAITHWORKS AS YOUR CHARITY FOR A FUNERAL COLLECTION

A Meaningful Tribute

Choosing Faithworks as the charity for a funeral collection is a beautiful way to honour your loved one's memory. Rather than flowers, donations can make a real, lasting impact. You'll help us continue our work to practically be there for people facing food insecurity, money crisis or homelessness; helping them find resilience and hope in the darkest times.

Simple to Organise

Collection envelopes

We can provide specially branded Faithworks envelopes, making it easy for guests to donate on the day.

Online giving

For those who prefer digital donations (or can't attend in person), you can set up a tribute page so friends and family can give online.

Cheque or cash

We offer clear instructions for how to submit any cash or cheque collections safely and securely afterward.

Share & Remember

If you want, we can help you set up an in-memory tribute page (we use Memory Giving). This is a space where people can share photos and memories, leave messages, and donate directly in lieu of flowers. It's a way for everyone to contribute and remember, even if they couldn't attend the service.

Maximise your Gift

When people use our envelopes and complete Gift Aid declarations, Faithworks can claim Gift Aid, meaning your collection will be boosted by 25% (this is a standard practice with UK charities).

Transparency & Personalisation

You can tell us how you'd like the funds to be used, whether that's for a particular Faithworks project, local community work, or general support. We'll acknowledge the donation in memory of your loved one so their legacy lives on.

Help when you Need it

We know this can be a difficult time. If you have any questions, whether about organising the collection, how to pay in donations, or how to set up a tribute page, our team is here to help. We'll be sensitive, supportive, and practical.

Responsible Giving

We follow best practices in fundraising, ensuring that donations are handled transparently and securely.
